# BALISTONE

Experience the allure of our latest collection of mosaic porcelain tiles, curated to encapsulate the essence of Balinese indulgence. Each tile is a passport to paradise, promising to transform your outdoor space into a serene haven that radiates opulence and tranquillity.

Elevate your outdoor spaces with Balistone Mosaics, the gold standard in pool and landscape design. Expertly crafted to showcase resilience and longevity, our tiles are characterised by a water absorption rate of under 0.5% - a testament to their unrivalled durability. This impressive quality makes them an ideal choice for any water feature or swimming pool, offering low maintenance without compromising on aesthetics.

Engineered with practicality in mind, Balistone Mosaics are an architect's dream. They effortlessly outshine traditional stone, boasting unique advantages that make them a preferred choice for both architects and designers. Our diverse palette, ranging from the calming blues and greens to the earthy tones of sandstone and grey, lets you design a space that mirrors your unique taste and style.

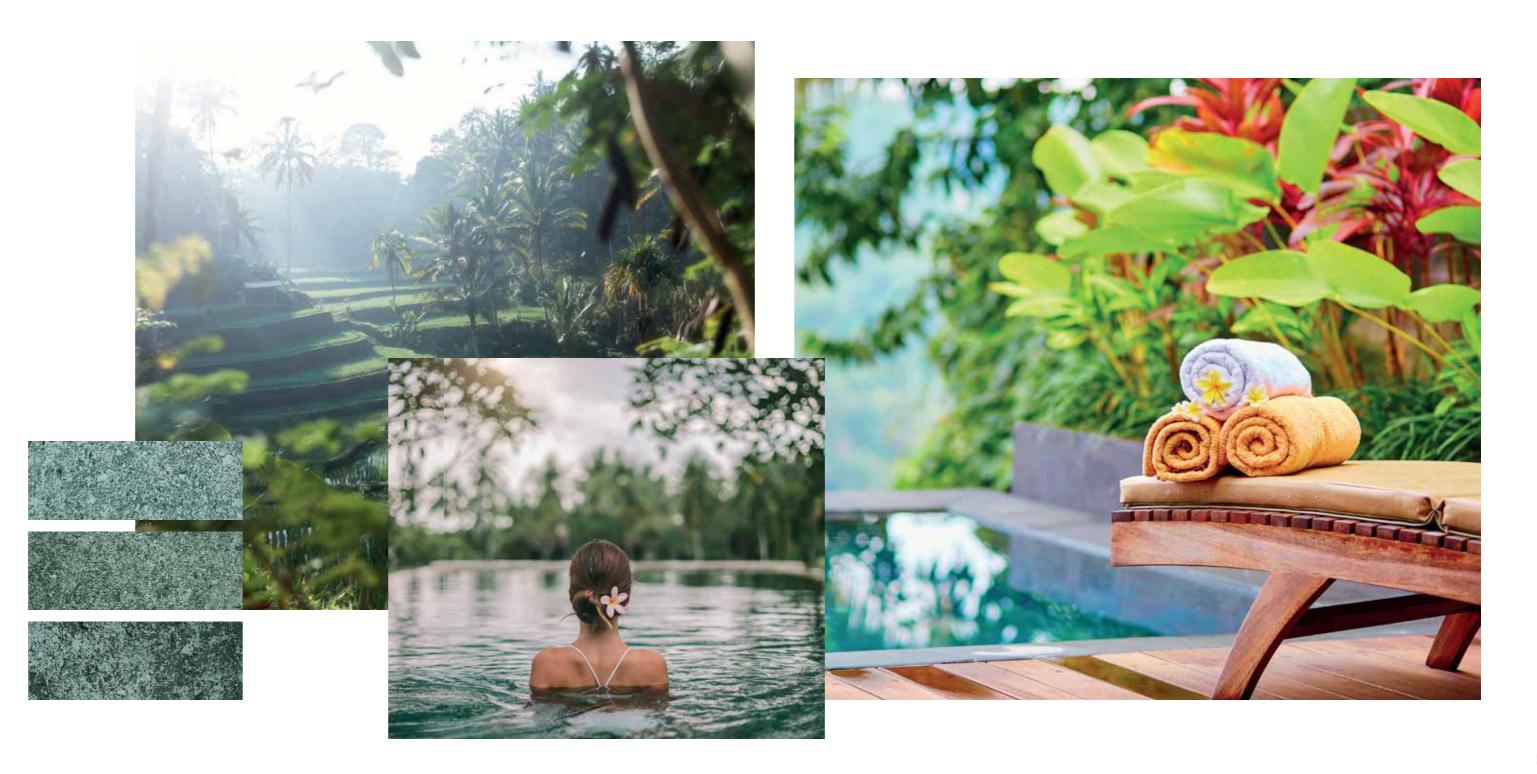

Embrace the elegance of Indonesian natural stone aesthetics without the hefty price tag. Our Balistone Mosaics bring a touch of luxury to your designs, garnering admiration from seasoned architects and designers alike. In our commitment to meet your specific needs, we offer customisation options to provide design continuity and rectification. Personalise your spaces down to the smallest detail - decide on your colour proportions to curate your perfect ambience. With Balistone Mosaics, transform your designs from ordinary to extraordinary, one tile at a time. Unlock the potential of your design with Balistone Mosaics and immerse yourself in a world where nature's palette meets exceptional craftsmanship.

2023/24 Collection

# Escape to BIBUD

Elevate your living space and reimagine your home with our breathtaking mosaic tiles, reflecting the tranquil charm of Ubud - Bali's spiritual epicentre. These distinctive pieces embody Bali's rich cultural legacy and lush tropical ambience, inviting you to relish the enchantment of this Island Paradise, right within the comfort of your home.

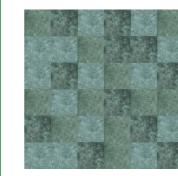

Indulge in the charm of our Balistone Ubud Mosaics, an artistic interplay of three carefully chosen shades: Light, Mid, and Dark. These hues, blended in respective proportions of 40%, 30%, and 30%, are designed to emulate the stunningly natural beauty inherent to our surroundings. Every sheet, sized at 306 x 306mm or 300 x 300mm, exhibits this enchanting tri-colour harmony. The random arrangement of each shade ensures a consistent, natural aesthetic, whether the tiles are placed by the water's edge or under the open sky. Invite the splendour of nature into your space with our Balistone Ubud Mosaics.

## **AVAILABLE SIZES:**

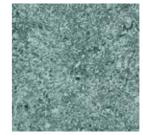

- Chip Size 48 x 48 x 6mm / Sheet Size 306 x 306 x 6mm
- Chip Size 97 x 97 x 6mm / Sheet Size 300 x 300 x 6mm

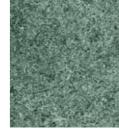

**UB48123** 48mm x 48mm

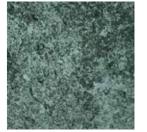

**UB97123** 97mm x 97mm

Light UB1

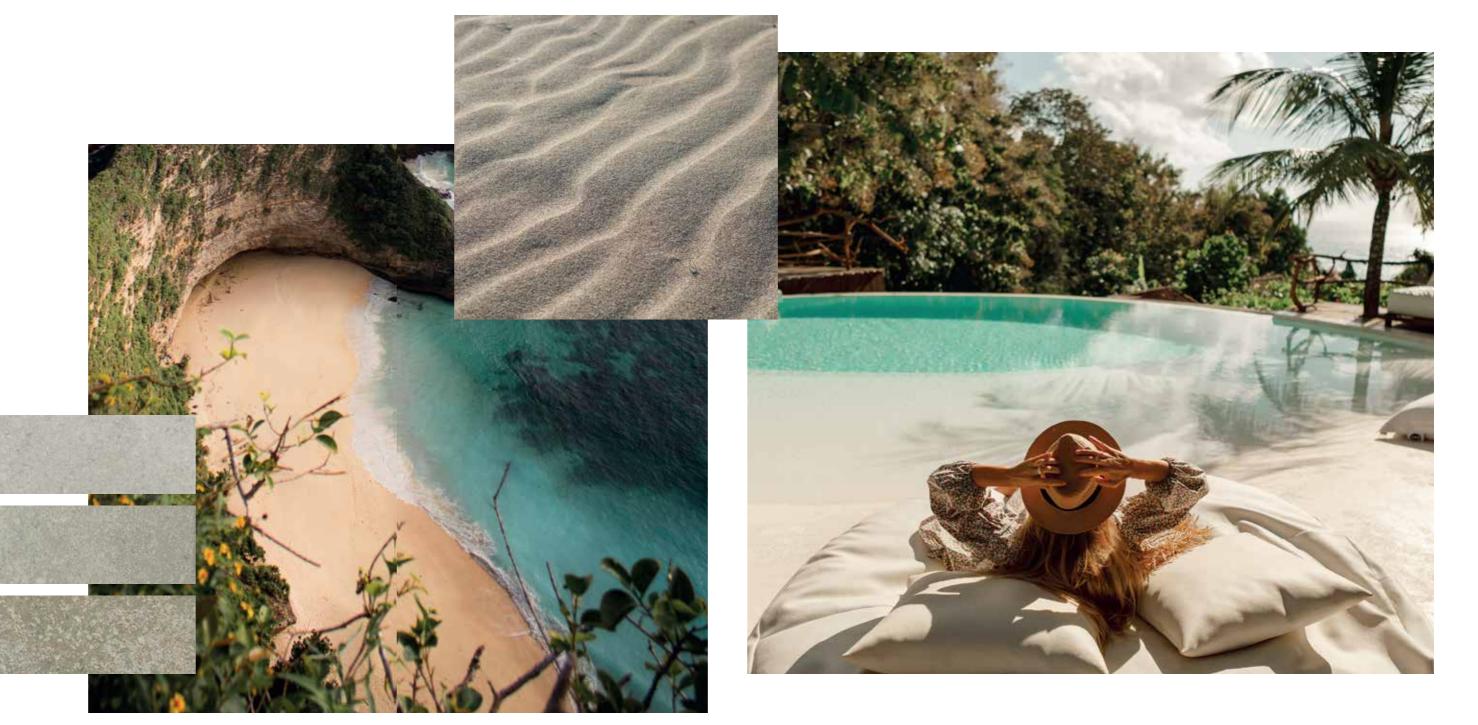

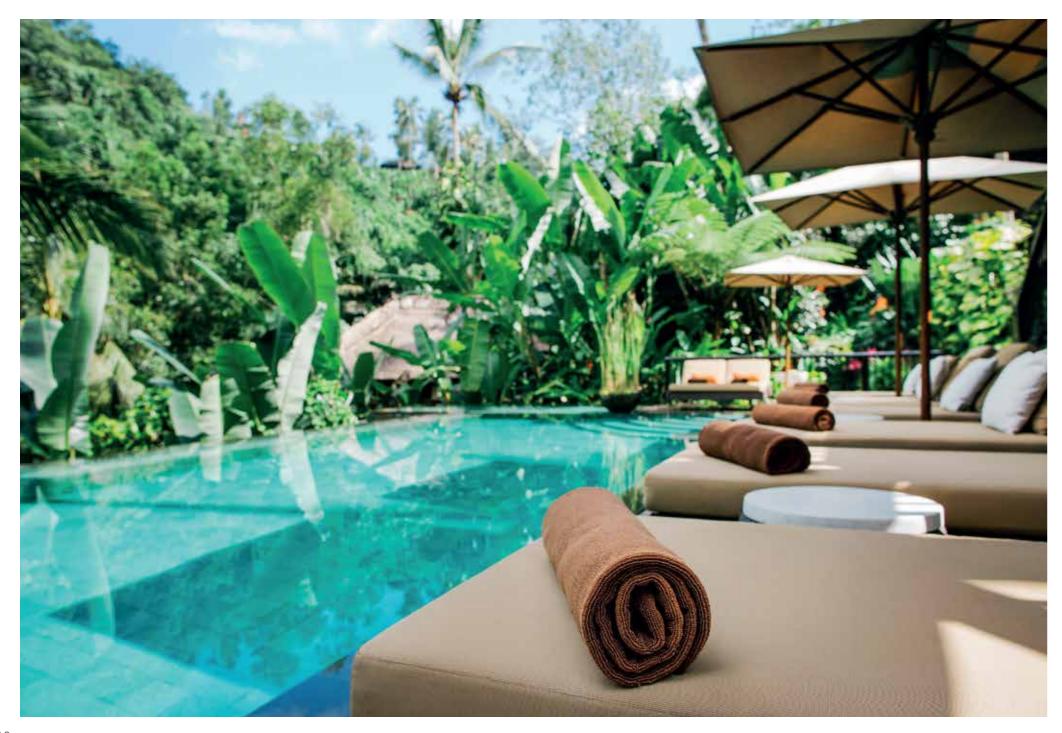

Dark UB3

Looking to craft a unique and personalised aesthetic for your space? Embrace your creativity with our bespoke tile design service. Instead of adhering to our standard tri-colour palette, as displayed in the 'Available Sizes' column, you're free to curate your own colour combination. Whether you prefer the simplicity of a single hue or the dynamic contrast of dual tones, our bespoke design service accommodates your vision. Please note, the minimum order for this bespoke option is 500 square meters. Unleash your imagination and add a touch of personal style to your space.

# A Taste of SANUR

Immerse yourself in the beauty of Sanur's sandy beaches and crystal-clear waters with "Sanur Sands" mosaic, a stunning range that brings the coastal allure of Sanur into your outdoor space, creating a peaceful ambiance that will transport you to the idyllic shores of Bali.

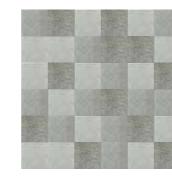

Introducing Balistone Sanur Mosaics: a captivating symphony of colour. Immerse yourself in the allure of our meticulously crafted tiles, featuring a harmonious blend of three enchanting shades - Light, Mid, and Dark. Each colour has been thoughtfully selected and skilfully blended, with a perfect balance of 40% Light, 30% Mid, and 30% Dark, to achieve a breathtakingly natural aesthetic. Discover the artistry within each 306 x 306mm or 300 x 300mm tile sheet, where the same colour proportions are expertly randomised. This thoughtful design technique ensures a seamless and organic appearance, whether these mesmerising mosaics grace the water or adorn your outdoor spaces.

## **AVAILABLE SIZES:**

- Chip Size 48 x 48 x 6mm / Sheet Size 306 x 306 x 6mm
- Chip Size 97 x 97 x 6mm / Sheet Size 300 x 300 x 6mm

**SA48123** 48mm x 48mm

**SA97123** 97mm x 97mm

At Balistone, we recognise and value your unique vision. Therefore, we invite you to unleash your creativity and craft your bespoke design. If our standard three-colour mix doesn't align with your aesthetic, you're more than welcome to diverge from the norm. You can select from our wide range of colours, opting for either a single shade or a duo for a customised look - what we proudly call a bespoke design. Please note, a minimum order quantity of 500 square meters applies to all bespoke designs, ensuring we can meet your specifications with the utmost precision. Unfold your creativity and let us turn your vision into reality with Balistone.

# The Beauty of BATUR

Unleash the breathtaking beauty of Bali's volcanic landscape with "Batur," an enchanting mosaic that brings the raw power and untamed allure into your garden. As a centerpiece, the interplay of grey creates a contemporary and modern aesthetic that seamlessly blends with various design styles.

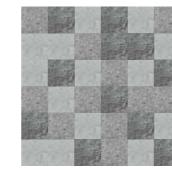

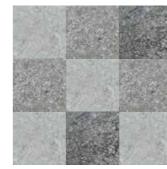

Balistone's Batur Mosaics uniquely blend three distinct hues: Light, Mid, and Dark. This thoughtful trio, meticulously chosen, creates a striking balance that mimics the sublime beauty of nature. Our palette comprises 40% Light, and 30% each of Mid and Dark, crafting a visual symphony of shades. Each mosaic piece, measuring 306 x 306mm or 300 x 300mm, embodies these percentages, but with an added twist: the colour placement is entirely random. This creative touch fosters a natural aesthetic that preserves its charm, be it in or out of water. Experience the magic of natural beauty infused in our bespoke Balistone Batur Mosaics.

## **AVAILABLE SIZES:**

- Chip Size 48 x 48 x 6mm / Sheet Size 306 x 306 x 6mm
- Chip Size 97 x 97 x 6mm / Sheet Size 300 x 300 x 6mm

Light BA1

Dark

Imagine a design that's uniquely yours, one that reflects your style and individuality. At Balistone, we encourage you to tap into this vision with our bespoke tile design service. You're not confined to our standard tri-colour blend showcased in the 'Available Sizes' section; instead, you can express yourself through our expansive colour palette. Whether your preference leans towards a singular hue or a combination of two, it's your choice. This creative freedom forms the cornerstone of our bespoke design offering. For these personalised designs, we request a minimum order of 500 square meters to ensure each piece meets your precise requirements. With Balistone, let your creativity reign and transform your unique vision into reality.

# Dive into MISA

Immerse yourself in the enchanting allure of the tropics with "Nusa," our extraordinary mosaic inspired by the crystalline waters that cradle the Nusa Islands of Indonesia. This aquatic masterpiece is meticulously crafted to transform your pools into serene retreats, infusing the calming blues of the ocean into your personal sanctuary. Dive into an unparalleled aesthetic experience with "Nusa," and allow the tranquillity of the tropics to envelop your outdoor haven.

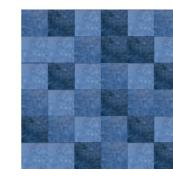

# Discover the

# RANGE

The Balistone Nusa Mosaics are an exquisite fusion of three captivating shades - Light, Mid, and Dark. Our experts have meticulously curated each colour, maintaining a naturalistic balance of 40% Light, 30% Mid, and 30% Dark. Each 306 x 306mm or 300 x 300mm mosaic sheet harmoniously incorporates these proportions but with a unique twist: the colours are artistically scattered in a random pattern. This thoughtful design element ensures a consistent natural aesthetic, whether submerged underwater or exposed to the open air. Step into the realm of natural elegance with our Balistone Nusa Mosaics.

## **AVAILABLE SIZES:**

NU97123 97mm x 97mm

Light NU1

Mid NU2

Dark

If you're seeking a more personalised aesthetic and would like to diverge from our standard trio of hues as displayed in the 'Available Sizes' column, Balistone encourages you to venture into our bespoke design service. You are invited to explore our expansive colour palette, selecting either a single shade or a pair to truly make the design your own - a process we proudly refer to as the creation of a bespoke design. Please be aware that all bespoke designs necessitate a minimum order of 500 square meters to ensure your unique vision is perfectly realised. Embark on a creative journey with Balistone, crafting a tile design that is truly a reflection of you.

# Relax in KITTA

Lose yourself in the magical charm of the sea with "Kuta," our remarkable mosaic inspired by the golden sands and shimmering waters that define Bali's iconic Kuta Beach. This seaside wonder is meticulously designed to metamorphose your pools into tranquil lagoons, infusing the warmth of sandy hues and cool blues of the sea into your personal paradise. Indulge in an unmatched aesthetic journey with "Kuta," and let the soothing serenity of Bali's beaches envelop your outdoor sanctuary.

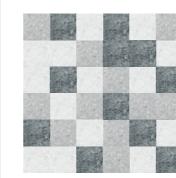

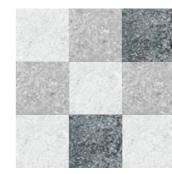

Balistone's Kuta Mosaics artfully blend three distinct shades: Light, Mid, and Dark, harmoniously uniting them in the spirit of Bali's picturesque Kuta Beach. We've judiciously curated these hues, preserving a balance of 40% Light, 30% Mid, and 30% Dark to mirror the innate splendour of nature. Each tile, precisely measured at 306 x 306mm or 300 x 300mm, retains this proportionate balance, but with a twist of spontaneity: the colours are scattered at random. This intentional design approach ensures a steady, natural aesthetic, both in and out of water. Dive into the embrace of nature with our beautifully curated Balistone Kuta Mosaics.

## **AVAILABLE SIZES:**

- Chip Size 48 x 48 x 6mm / Sheet Size 306 x 306 x 6mm
- Chip Size 97 x 97 x 6mm / Sheet Size 300 x 300 x 6mm

KU48123 48mm x 48mm

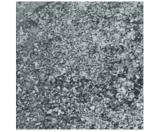

**KU97123** 97mm x 97mm

Light KU1

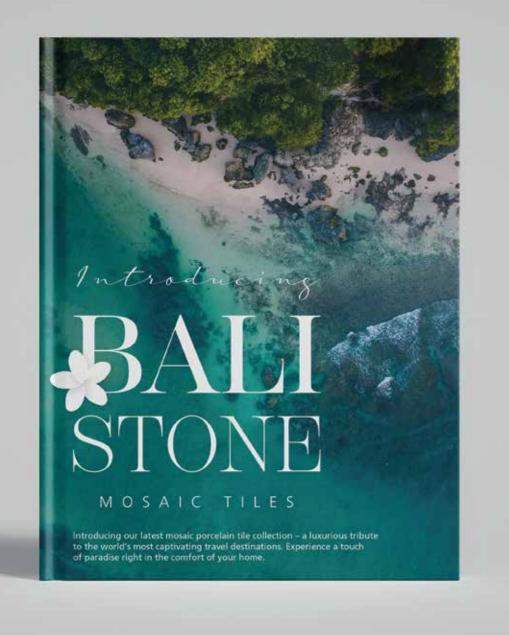

Mid KU2

Dark KU3

Unleash your imagination and design a truly bespoke masterpiece with Balistone. If you desire to deviate from our standard three-colour blend featured in the 'Available Sizes' column, we offer you the freedom to select your own colour scheme. Whether you prefer the elegance of a single shade or the harmony of a dual-tone combination, our bespoke design service caters to your unique vision. Please note that a minimum order quantity of 500 square meters applies to ensure we can fulfil your customised order with utmost precision. Step into the realm of limitless creativity and elevate your space with Balistone's exquisite bespoke designs.

# BaliStone; Where Every Tile Tells a Tale

**Product Swatch Wallets**Sample and product information

# Crafting Your BaliStone: A Guide to Bespoke Beauty

Combine the range abbreviation, your desired chip size, and shade code. Mix and match, and let your space shine!

## Tile Sizes and Sheet Sizes:

- Chip Size: 48 x 48 x 6mm (with corresponding Sheet Size of 306 x 306 x 6mm)
- Chip Size: 97 x 97 x 6mm (with corresponding Sheet Size of 300 x 300 x 6mm)

## **Colour Codes:**

Light is represented by 1, Mid by 2, and Dark by 3.

## Tile Ranges: There are five ranges, each with a unique abbreviation:

- Ubud (UB)
- Sanur (SA)
- Kuta (KU)
- Nusa (NU)
- Batur (BA)

# **Single Colour Specification:**

For choosing a tile of a specific colour from a particular range, combine the range abbreviation, chip size, and colour code. **Example** for 97x97mm: Kuta in Light is KU971.

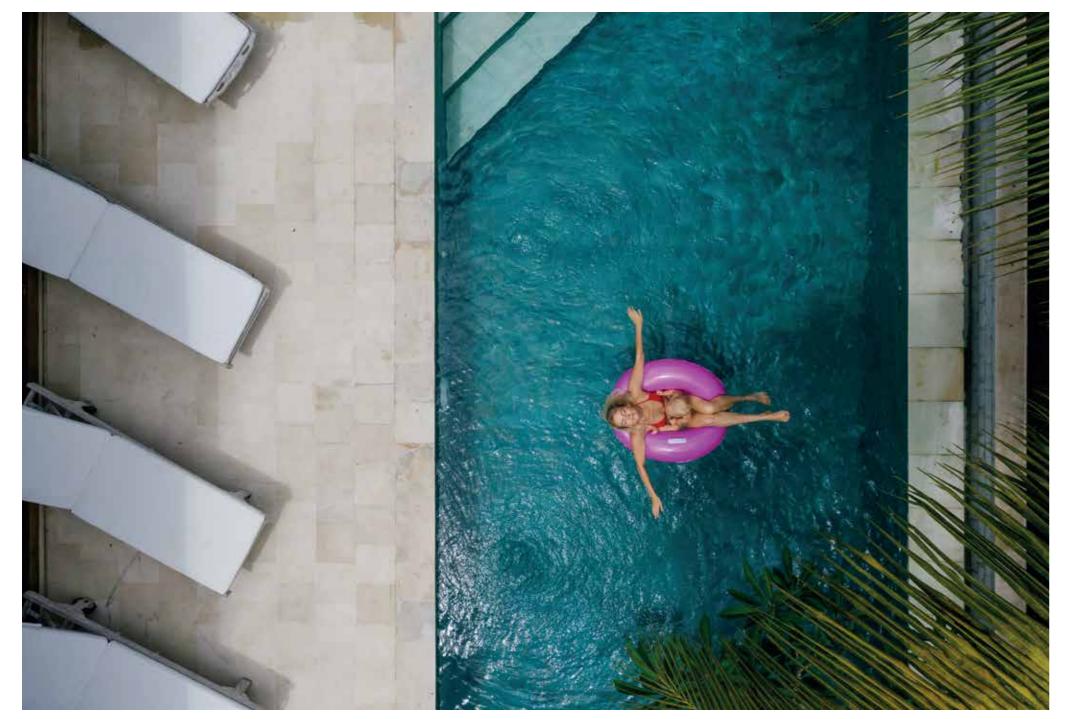

# **Combining Different Ranges:**

For mixing two colours from different ranges, use the range abbreviation, chip size, and colour code for each range, separated by a slash. **Example** for 97x97mm: Kuta Light and Nusa Mid would be KU971/NU972.

# **Combining Colours within the Same Range:**

For choosing multiple colours within the same range, combine the range abbreviation, chip size, and the respective colour codes in sequence. **Example** for 97x97mm: Kuta Light, Mid, and Dark would be KU97123.

# What Our Clients Say

"Tileline has supplied in many of my projects and I am extremely impressed with the level of personal service and outstanding quality of their products. I am looking forward to continue our work together in delivering quality landscapes and developing innovative applications using their materials."

Leo Gonzales - Senior Landscape Architecture - United Arab Emirates

"Brian always delivers, whether expectations, promises or materials. Some of the best Client focus in the business. I have no hesitation in recommending him to anyone in the market"

James Dickson - CEO of Al Abbar Group

"As the market continues to evolve demanding bespoke solutions it is the type of innovation that Brian and his team provides that supports designers and construction professionals alike in delivering the highest quality projects."

Christopher A. Brown - Executive Director of NEOM

"As a Landscape Architect, we are always looking for better ways to deliver world-class projects for our clients. Tileline, and more specifically, Brian have made our jobs much easier in recent years. Brian's expertise, support, and commitment to service have been invaluable. As a product, I cannot speak higher about the beauty, quality, and durability of both the Bali Stone and Sukabumi Porcelain tiles. In my opinion, they are a game changer in our industry."

**Sean Simms** - President of SKS Studio - Kansas USA

"In pursuit of excellence and innovation, partnering with Tileline became an evident choice. Their exceptional range, especially the addition of the Balistone line, is precisely what the Australian market needs. I am consistently impressed by their forward-thinking approach and the impeccable quality they bring. My endorsement comes without hesitation."

Jay McMillan - CEO ASG Queensland Australia

# Why Choose Balistone Mosaics Over Natural Stone?

Natural Balistone, colloquially referred to as Sukabumi, is a fascinating lava-derived stone, imbued with inherent hues of grey and blue, which metamorphoses into an enchanting emerald green upon immersion in water. Despite this charming transformation, segments not subjected to submersion persist with a less attractive grey tint, frequently clashing with the overarching aesthetics of the pool and outdoor area. As shown in the accompanying image, areas exposed to intermittent water splashes but not fully submerged undergo a pronounced process of erosion. Consequently, without conscientious sealing and consistent maintenance, these sections risk significant disintegration, potentially resulting in crumble within a span as brief as six months.

A principal constraint of natural Balistone is its inherently porous nature. The stone, in its unprocessed form, is ill-suited for constant submersion. This porosity, along with an increased sensitivity to aquatic chemicals, generates immediate maintenance concerns and results in a a complex installation procedure. Thus, any provider of natural Balistone pool tiles must have comprehensive knowledge of the stone's distinctive characteristics and potential difficulties.

The stone's geological origins contribute additional complexities. Its composition, rich with iron nodules and intricate layers, gives rise to considerable colour variations - from light green to dark brown. Only a select few quarries have the capacity to produce a stable colour devoid of brown discolouration. Moreover, some portions of the stone formation are subject to significant environmental alterations such as exposure to hot steam. This exposure compromises the integrity of the stone, making the resulting blocks and tiles fragile and challenging to handle. Material harvested from these affected regions often does not meet commercial usability standards. Consequently, this further intensifies the challenges associated with the application and upkeep of natural Balistone.

In contrast, Balistone Mosaics offer a seamless, visually appealing experience. Engineered to mimic the natural allure of Balistone, these mosaic tiles circumvent the inherent issues associated with the natural stone. They provide consistent colouring, greater durability, and simpler installation and maintenance processes. Moreover, they sustain the aesthetic beauty of Balistone, but without its problematic attributes. Hence, when evaluating the trade-offs, Balistone Mosaics clearly emerges as the superior choice.

# Experience the Advantage: BaliStone's Dot-Mounted Mosaics

Our newest BaliStone Range introduces Dot Mounted Mosaics, a progressive design solution that presents several benefits over the traditional Mesh Mounted Mosaics. By combining innovation with superior craftsmanship, dot-mounted mosaics offer enhanced flexibility, durability, and aesthetic excellence.

# 1. Flexibility at Its Finest:

Dot-mounted mosaics provide exceptional flexibility compared to mesh-mounted mosaics. Thanks to individual tile mobility, they seamlessly fit even on curved surfaces and corners, allowing precise adjustments during installation.

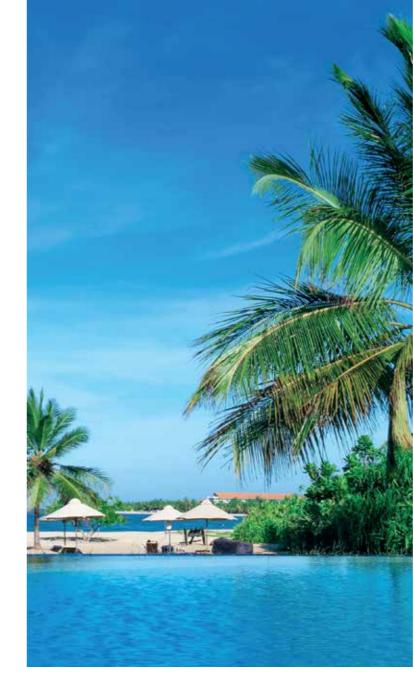

# 2. Strength That Lasts:

With dot-mounted mosaics, each tile makes more direct contact with the adhesive, creating a stronger bond with the underlying surface. This reduces the risk of tiles loosening, offering enhanced longevity over mesh-mounted mosaics.

Embrace the future of design with our BaliStone Range's dot-mounted mosaics, where technological advancements meet elegance and function. Experience the BaliStone advantage today.

# Dot System

Balistone Mosaics, this new innovative dot system allows 100% better coverage of adhesive when compared to the traditional mesh-mounted mosaics.

The dot system method improves the longevity of any tiling installation.
